01. Brand Structure

In this section, we outline the building blocks of the Popla Brand, including what we stand for, what sets us apart, why we choose the words we use, and how we've decided to show up in the world.

What is Popla?

The go-to app for Event Organizers, DJs, Creatives, and music enthusiasts.

Create events, sell, manage, and authenticate tickets in app. Engage with your community by enabling song requests at your event, ensuring you **vibe your way**.

Brand Message

Growing up, we were never given much choice. As children, we followed our parents' instructions without question: eat what they told us to eat, wear what they told us to wear, sleep when they told us to sleep, and go to school when they told us to go. Little did we know, this cycle would continue into adulthood. Society became our new parent, dictating what we should eat, wear, where to live, how to spend our money, and even the relationships we keep. It often feels like we have no real choice, simply doing what we are told.

Popla's brand message is one that gives humans the ability to reclaim their freedom. An app that gives you a five-hour break on Friday nights to embrace your choices. Whether it's requesting a song for the DJ to play or finding an event that suits your vibe, Popla empowers you to take control.

Poplar puts the power back in your hands, allowing you to shape your experience and define your vibe. This is our brand story: a commitment to giving humans the power of choice and the ability to control their vibe.

One Color Usage

The one-color logo should be used only on photographs and color backgrounds within the Popla's color palette.

The one-color logo should be only on purple, black and white colorways.

If using an aubergine background, we strongly prefer to use the full-color logo.

However, if design limitations conflict with this, then the logo should appear in white on aubergine.

Core Colors

Use these color proportions in any layout or collateral design. Gray, Lemon and Blue can be used as accent colors in the proportions shown on the right.

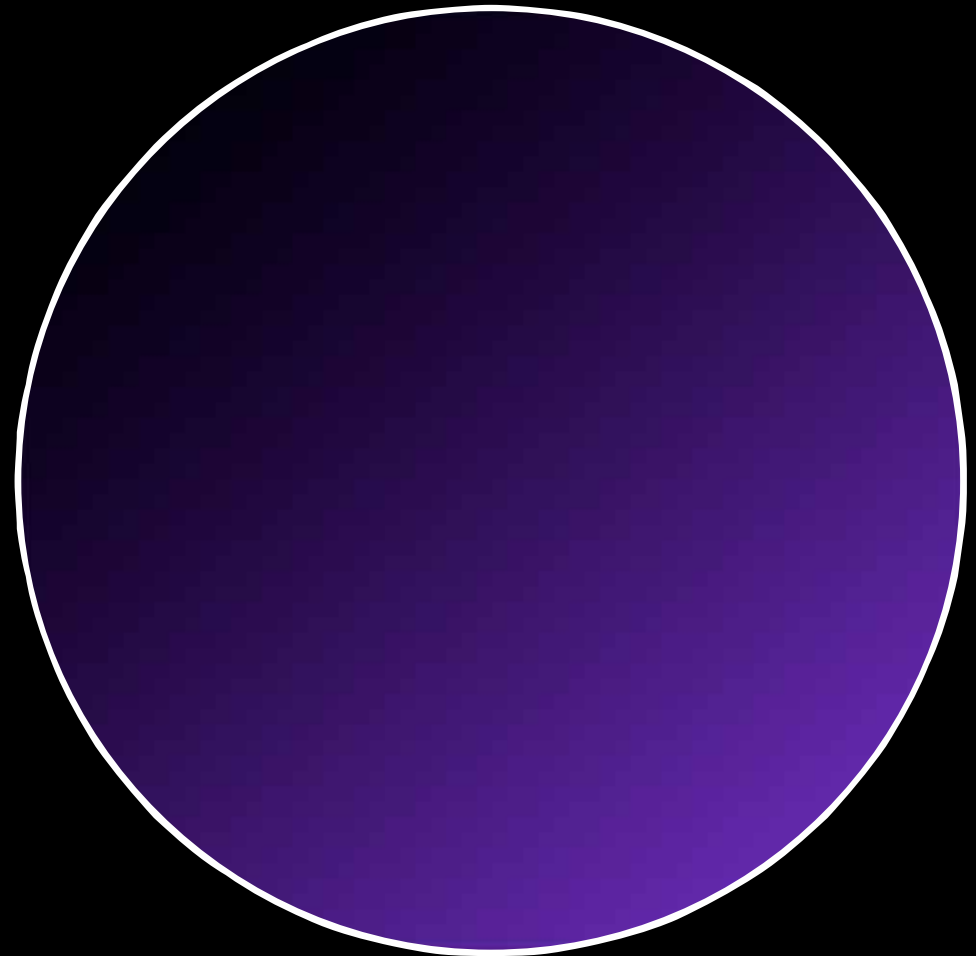

Use only black or white text on core colors as outlined on the right.

Do not interchange the use of black and white text according to preference, as these color combinations are specifically approved for accessibility.

03. Identity Usage

In this section, we outline the application of our visual and verbal elements across all communication channels and touchpoints. This ensures a cohesive and recognizable brand presence, strengthening brand recall and building trust among consumers

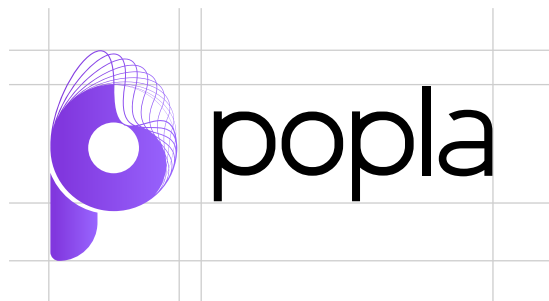

Logo Usage

Each variation is optimized for different uses, ensuring your brand remains consistent and recognizable regardless of the platform or context.

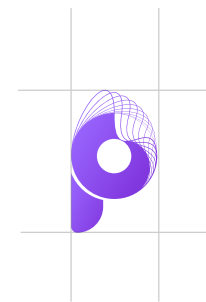

Full Logo with Tagline

This version is typically best for full-width banners on websites or email signatures. It provides the most complete brand representation, including the company's name and message.

Full Logo

This is ideal for profile pictures, social media flyers or avatars where some text can be accommodated but the full tagline might be too small to read. It keeps the brand recognizable while fitting better in smaller spaces.

Logo Icon

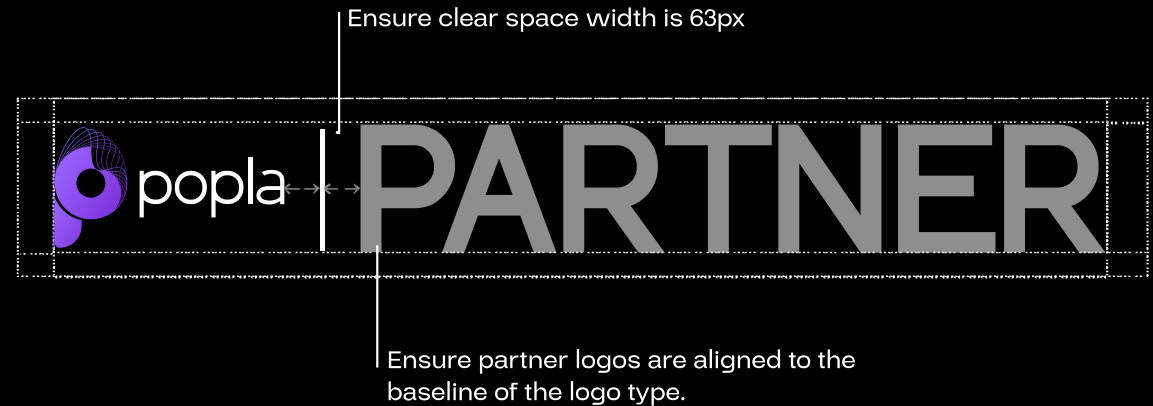

This version works best in spaces where there's limited room, such as social media profile pictures, app icons, or favicon for websites. The icon alone still represents Popla visually without the need for text.

Partnership Lockup

The partnership lockup is used for communication around approved Popla partnership.

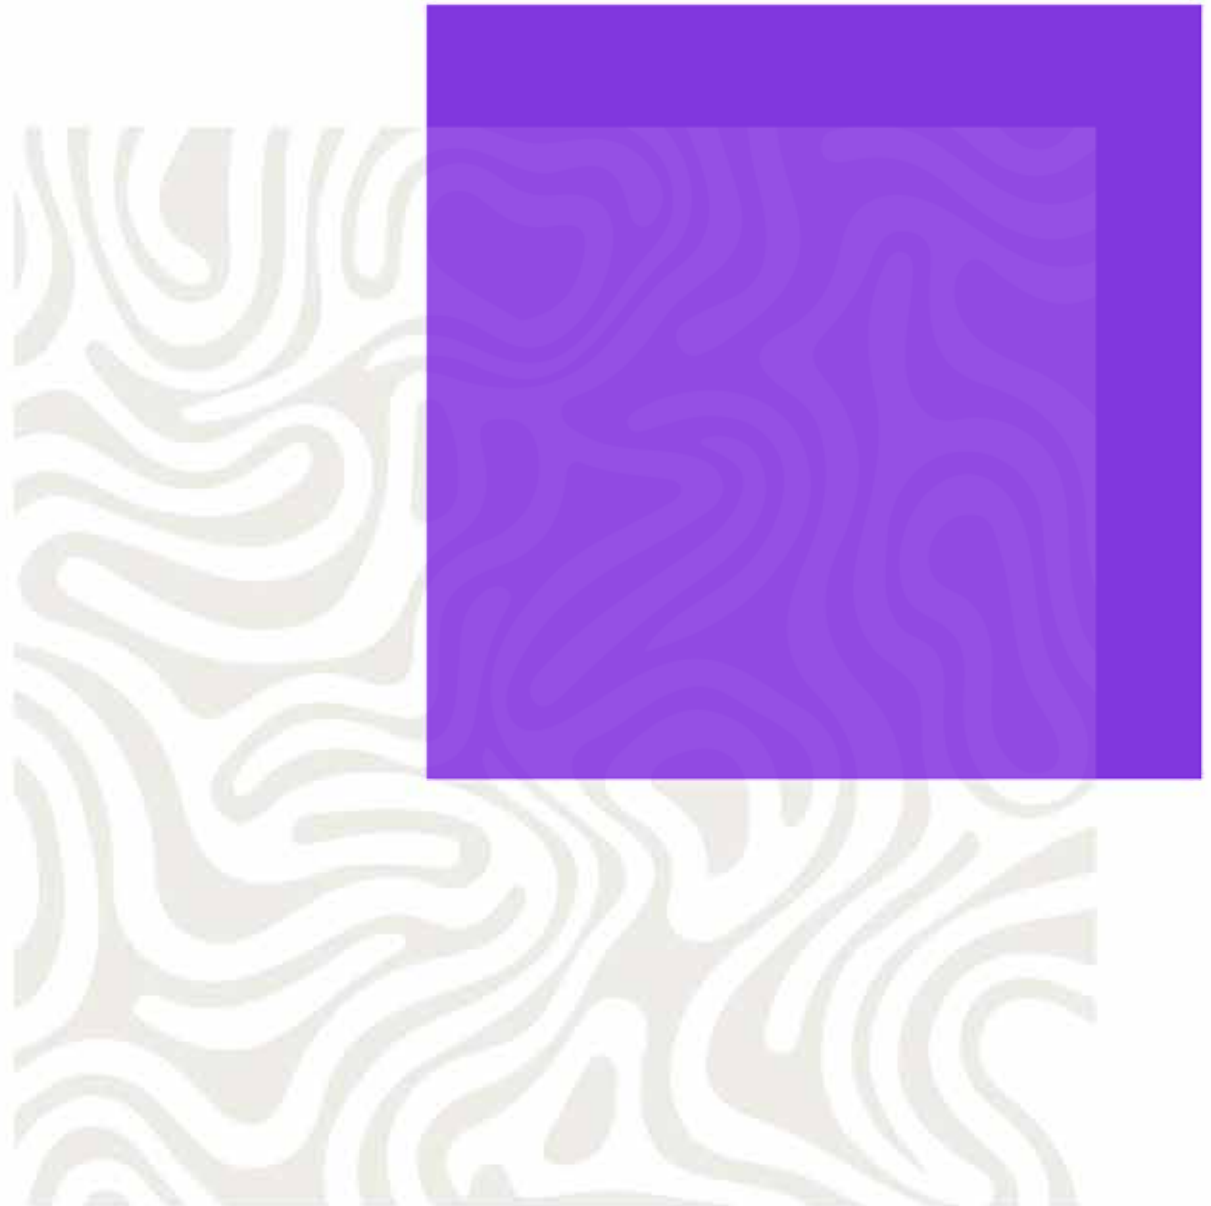

We lockup the Popla logo with a partner logo, Placing the Popla logo either to the left or top of the partner logo. We add clear space between the logos equal to the size of the Popla icon and divide this space we have by vertical lines.

Both logos should feel of equal size. Partner logos should be aligned to the optical baseline of the Popla logo type.

Pattern Usage

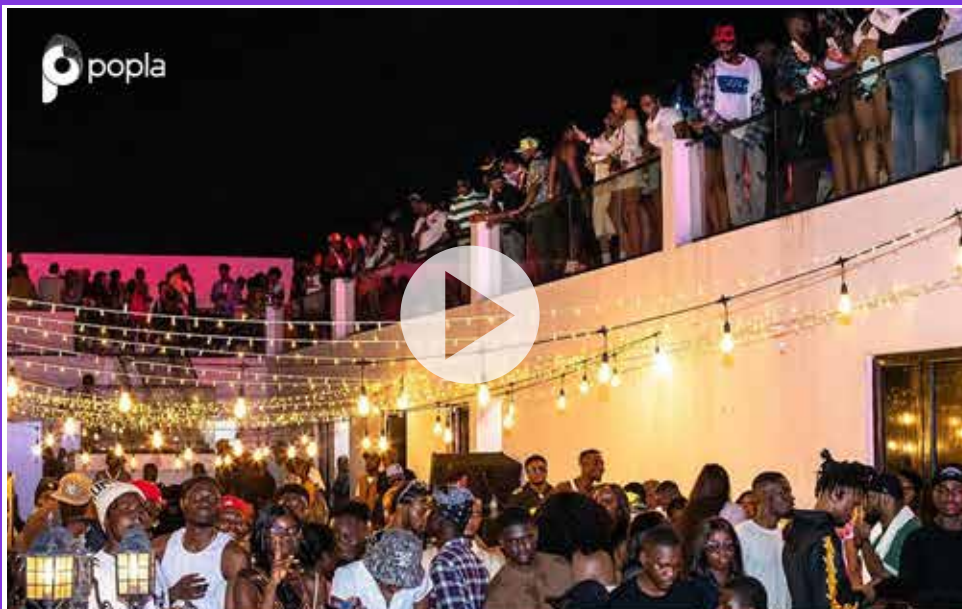

The pattern can be used on white backgrounds and also on our core color backgrounds (One - Color or Gradient).

Photography & Video

Ensure logo type appears on dark areas of pictures and videos with the following options:

- Top Left
- Top Right
